HUSSAIN ALI JAVED

+92(330) 9894613 | Haripur, Pakistan

hussainalijaved712@gmail.com | LinkedIn

OBJECTIVE

Computer Science graduate from COMSATS University Islamabad, Abbottabad Campus, with hands-on experience in **Blazor .NET Full Stack Development**. Skilled in building modern, responsive web and desktop applications with strong problem-solving abilities. Passionate about creating impactful software solutions and eager to contribute to a professional development team.

SKILLS

Technologies	C#, .NET, Blazor (Server, WebAssembly, Hybrid MAUI), ASP.NET Core, Entity Framework, SQLite, SQL, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS
Core Development	Full Stack Web & Desktop Apps, CRUD Systems, Billing Systems, State Management, API Integration
Tools	Object Oriented Programming, Visual Studio, Git/GitHub, Postman
Soft Skills	Teamwork, Communication, Problem-Solving, Adaptability, Time Management

PROJECTS

Final Year Project, Pakistan **Sep 2024 – Aug 2025**

Smart Tales and Task App – *Full Stack .NET Developer*

A learning and assignment management app designed for teachers and students. Teachers can upload stories, manage assignments, track student progress, and send notifications.

Technologies: Blazor Hybrid MAUI, SQLite, Tailwind CSS

Personal Projects, Pakistan **April 2025**

GateSale – Student Marketplace – *Full Stack .NET Developer*

An online platform enabling students to buy and sell products. Features include product listings, search, and user authentication.

Technologies: Blazor .NET, SQL Server, Bootstrap

SABES – Electric Store POS App – *Full Stack .NET Developer* **Sep 2025**

A point-of-sale desktop/mobile app for an electric store. Features include billing, discounts, quotations, pending/paid invoices, and professional PDF export.

Technologies: Blazor Hybrid MAUI, .NET 8, SQLite, Tailwind CSS

EXPERIENCE

Backend Developer (Convo Pvt Ltd)

Intern – Asp .Net Core **Dec 2025 – Present**

- Architected and developed enterprise-grade backend systems and scalable APIs using ASP.NET Core.
- Implemented secure authentication and authorization flows utilizing JWT, Single Session Management, and SSO integrations.
- Engineered a centralized API Gateway integrated with Azure APIM to enforce dynamic routing, security policies, and performance tracking.

Remote Internship (Arch Technologies)
Intern – Data Analytics **June 2025 – Aug 2025**

- Assisted in cleaning, analyzing, and visualizing retail sales datasets.
- Worked with tools like Excel and Python (pandas, matplotlib) to extract insights.
- Identified sales trends, top-performing products, and regional performance

EDUCATION.

Bachelor of Computer Science — *2021–2025*
COMSATS University Islamabad, Abbottabad Campus

FSc (Computer-Science) – *2021*
Jinnah Jame School & College, Haripur

Matric (Science) – *2019*
Jinnah Jame School & College, Haripur

ADDITIONAL INFORMATION

- Passionate about .NET ecosystem and full stack development.
- Interested in learning cloud deployment (Azure, AWS).
- Languages: English (Fluent), Urdu (Native).
- Open to internships and entry-level software engineering roles.
